# Experience the BHI Difference

At Blackheart International, we know what works in the real world and what doesn't when it comes to tactical weaponry. As former U.S. Army Special Forces members and current trainers of domestic and international special operations teams, we are subject matter experts who apply practical lessons learned to our product development. We don't do gimmicks or cut corners because lives depend on the decisions we make as a manufacturer and supplier to the military.

We use only premium components manufactured and assembled to the highest possible standards. Our weapon components are selected for reliability, durability and practical performance in real-world combat conditions, and all BHI weapons meet the rigorous standards of practical tactical operational capability. How do we know? We've done it in both combat and law enforcement venues, and we continually train the A-teams who do it every day.

Unlike most mass-market manufacturers, we don't build paper tigers and put them into production. Our combat experience and lessons learned from ongoing training of special operations members through Blackheart International Training are part of every firearm we make. This gives consumers confidence that their BHI weapon will perform up to and, in many cases, exceed the exacting standards of military grade firearms in terms of performance and reliability.

## BHI-15 S<sup>2</sup>

BH-BHI15S-024

The BHI-15 S<sup>2</sup> is the rifle on which our entire BHI-15 series of fire-arms is based. This is a true "shooter's" semi-automatic AR that features a practical yet ergonomic design thanks to its collapsible stock, contoured pistol grip and BHI's exclusive BHI-15 modular hand guard system. A hard-chromed bolt carrier group, Titanium firing pin, Wolff springs and Geissele combat trigger ensures smooth, reliable operation while the chrome-lined free-float barrel delivers long-term durability and easy bore cleaning. For accuracy, dependability and tactical performance the BHI-15 S<sup>2</sup> has no equal.

### SPECIFICATIONS

**Caliber:** 5.56mm NATO  
**Bolt Carrier Group:** Gas-operated semi-auto, hard-chromed  
**Charging Handle:** PRI Gasbuster  
**Capacity:** 30 rounds 5.56mm NATO  
**Stock:** Magpul CTR collapsible  
**Forend:** Aluminum free-float tube  
**Barrel:** Chrome-lined, mid-length gas system  
**Barrel Length:** 16 inches  
**Barrel Twist:** 1:8  
**Barrel Finish:** Manganese Phosphate  
**Trigger:** Geissele Super Dynamic Combat  
**Upper Receiver:** MIL-SPEC A3 flat top  
**Lower Receiver:** BHI-15 MULTI caliber aluminum  
**Receiver Finish:** Hard-coat black anodized  
**Muzzle:** Surefire Muzzle Brake/Suppressor Adapter

## BHI-15 SCA

BH-BHI15S-024-F-CA

The BHI-15 SCA is a modified version of the popular BHI-15 S<sup>2</sup> that was developed for legal sale in the state of California. It is the same as the BHI-15 S<sup>2</sup>, but includes a magazine lock, 10-round magazine and an approved muzzle brake.

## BHI-15 SBR<sup>2</sup>

BH-BHI15S-SBR001

There are many short-barrel rifles on the market today, but none can compare to the BHI-15 SBR<sup>2</sup>. This NFA weapon is built using the same lower receiver assembly, upper receiver, hard-chromed bolt carrier group, Titanium firing pin and Gasbuster charging handle as the BHI-15 S<sup>2</sup>, but comes with a chrome-lined 11-inch free-float barrel, carbine-length gas system and the carbine-length version of the BHI-15 Hand Guard System, which allows customized placement of rails and forearm accessories. (ALL NFA RULES APPLY)

### SPECIFICATIONS

**Caliber:** 5.56mm NATO  
**Bolt Carrier Group:** Gas-operated semi-auto, hard-chromed  
**Charging Handle:** PRI Gasbuster  
**Capacity:** 30 rounds 5.56mm NATO  
**Stock:** Magpul CTR collapsible  
**Forend:** Aluminum free-float tube carbine-length  
**Barrel:** Chrome-lined, carbine-length gas system  
**Barrel Length:** 11 inches  
**Barrel Finish:** Manganese Phosphate  
**Trigger:** Geissele Super Dynamic Combat (SDC)  
**Upper Receiver:** MIL-SPEC A3 flat top  
**Lower Receiver:** BHI-15 MULTI caliber aluminum  
**Receiver Finish:** Hard-coat black anodized  
**Muzzle:** Surefire Muzzle Brake/Suppressor Adapter

## BHI-15 SPR<sup>2</sup>

BH-BHI15SPR-001

The BHI-15 SPR<sup>2</sup> (Special Purpose Rifle) was developed to provide long-range accuracy in a semi-automatic platform. Like the BHI-15 S<sup>2</sup>, the BHI-15 SPR<sup>2</sup> includes premium internal components and superior upper and lower receivers, but comes with a 20-inch chrome-lined free-float barrel, rifle-length gas system and rifle-length BHI-15 Hand Guard System. Shooting accuracy is further enhanced with a Magpul PRS stock, which offers adjustable cheek riser height and length-of-pull. The DPMS Panther Tactical Grip delivers more direct trigger pull, and support to reduce fatigue when waiting for the shot.

### SPECIFICATIONS

**Caliber:** 5.56mm NATO  
**Bolt Carrier Group:** Gas-operated semi-auto, hard-chromed  
**Charging Handle:** PRI Gasbuster  
**Capacity:** 20 rounds 5.56mm NATO  
**Stock:** Magpul PRS  
**Forend:** Aluminum free-float tube  
**Barrel:** Chrome-lined, rifle-length gas system  
**Barrel Length:** 20 inches  
**Barrel Finish:** Manganese Phosphate  
**Trigger:** Geissele Super Dynamic Combat  
**Upper Receiver:** MIL-SPEC A3 flat top  
**Lower Receiver:** BHI-15 MULTI caliber aluminum  
**Receiver Finish:** Hard-coat black anodized  
**Muzzle:** Surefire muzzle brake/suppressor adapter

## BHI-15 S<sup>2</sup> AR57 Rifle

BH-BHI15-57L-002S

The BHI-15 S<sup>2</sup> AR57 Rifle blends the lightweight AR57 upper with the premium BHI-15 S<sup>2</sup> lower receiver. The upper features a fluted 16-inch barrel and Gen 2 receiver, making it significantly lighter than its predecessor. This combination delivers the ultimate 5.7x28mm carbine shooting experience.

### **SPECIFICATIONS**

Semi-automatic  
5.7x28mm chamber  
16-inch free-float barrel  
Milled 7075 T6 aluminum upper receiver  
MULTI caliber aluminum lower receiver  
Geissele Super Dynamic Combat trigger  
Wolff trigger springs  
Stark SE-1 pistol grip  
Hard-coat anodized finish  
750 rounds per minute  
6.15 pounds

## BHI-15 MIL-SPEC<sup>2</sup> AR57 Rifle

BH-BHI15-57L-002

An entry level firearm, the BHI-15 MIL-SPEC<sup>2</sup> AR57 Rifle combines the Gen 2 AR57 16-inch upper receiver assembly with a MIL-SPEC lower receiver. The upper features a fluted 16-inch barrel and Gen 2 receiver.

### **SPECIFICATIONS**

Semi-automatic  
5.7x28mm chamber  
16-inch free-float barrel  
Milled 7075 T6 aluminum upper receiver  
MULTI caliber aluminum lower receiver  
MIL-SPEC trigger group  
A2 pistol grip  
Hard-coat anodized finish  
750 rounds per minute  
5.91 pounds

## BHI-15 S<sup>2</sup> AR57 SBR

BH-BHI15-57S-002S

NFA rules apply

The BHI-15 S<sup>2</sup> AR57 SBR finds no equal in the growing short-barrel rifle field thanks to its rock-solid Gen 2 AR57 12-inch upper and combat-inspired BHI-15 S<sup>2</sup> lower. This rifle delivers unparalleled shooter ergonomics, smooth operation and mission reliability for discreet personal defense or a long day at the range.

### **SPECIFICATIONS**

Semi-automatic  
5.7x28mm chamber  
12-inch free-float barrel  
Milled 7075 T6 aluminum upper receiver  
MULTI caliber aluminum lower receiver  
Geissele Super Dynamic Combat trigger  
Wolff trigger springs  
Stark SE-1 pistol grip  
Hard-coat anodized finish  
750 rounds per minute  
5.80 pounds

## BHI-15 MIL-SPEC<sup>2</sup> AR57 SBR

BH-BHI15-57S-002

NFA rules apply

A no-nonsense short-barrel rifle that's ideal for sport shooting or discreet personal defense, the BHI-15 MIL-SPEC<sup>2</sup> AR57 SBR is based on the stout BHI-15 MIL-SPEC lower receiver and the Gen 2 AR57 12-inch upper receiver.

### **SPECIFICATIONS**

Semi-automatic  
5.7x28mm chamber  
12-inch free-float barrel  
Milled 7075 T6 aluminum upper receiver  
MULTI caliber aluminum lower receiver  
MIL-SPEC trigger group  
A2 pistol grip  
Hard-coat anodized finish  
750 rounds per minute  
5.56 pounds

## BHI-15 S<sup>2</sup> AR57 Pistol

BH-BHI15-57P-002

NO NFA STAMP REQUIRED!

The BHI-15 S<sup>2</sup> AR57 Pistol features the Gen 2 AR57 12-inch upper receiver and the same lower receiver assembly as the AR57 short- and long-barrel rifles but does not include a stock, making it legal to purchase and own without an NFA stamp.

### **SPECIFICATIONS**

Semi-automatic  
5.7x28mm chamber  
12-inch free-float barrel  
Milled 7075 T6 aluminum upper receiver  
MULTI caliber aluminum lower receiver  
Geissele Super Dynamic Combat trigger  
Wolff trigger springs  
Stark SE-1 pistol grip  
Hard-coat anodized finish  
750 rounds per minute

## BHI SOPMOD AK<sup>2</sup>

The BHI SOPMOD AK weapon system is the modernization of one of the most reliable rifles in the world. With its hammer-forged barrel and stamped receiver, we use only the highest quality Russian SAIGA AKs as the base weapon. Starting with a converted SAIGA 7.62x39mm, we build-up the SOPMOD AK with the best AK accessories on the market. These upgrades enable the AK to accept rail-mounted optics and accessories. Ergonomic improvements such as the enhanced selector lever (with finger tab) allow the operator to employ the weapon more quickly. The end result is a Blackheart International-enhanced battle rifle that delivers the quality and reliability of a Russian SAIGA AK combined with accessories that enable faster target acquisition and engagement. Select-fire (full-auto) available for government/military clients.

### SPECIFICATIONS

- Russian SAIGA 7.62x39mm
- Stamped receiver
- Hammer-forged, chrome-lined barrel
- Collapsible and foldable stock
- SAW-style pistol grip
- Enhanced selector lever
- Aluminum quad-rail forend
- Angled fore grip
- 30-round Bulgarian polymer waffle magazine

**Weight:** 8.7 pounds (w/o magazine)

**Length:** Folded (29.0 inches)

Unfolded-Collapsed (36.9 inches)

Unfolded-Extended (40.1 inches)

ALSO AVAILABLE WITH A FOLDING  
AND COLLAPSIBLE STOCK

Includes the new AKARS  
sight mounting system

BH-SOPMOD-7.62-SL-MM02 (semi-auto, collapsible stock)

BH-SOPMOD-7.62-SL-MM01 (semi-auto, folding & collapsible stock)

Select-fire (full-auto) available for government/military clients.

## BHI M92 AK SBR

BH-BHI-M92SBR-002

Built from the Serbian M92 pistol, this tactical SBR provides 7.62x39mm semi-auto firepower in a compact package.

- 10-inch barrel
- (2) 30-round magazines
- side-folding stock
- aluminum quad-rail forend

subject to availability

# BHI-15 SF

Suppressor and optics not included

See BHI-15 SBR<sup>2</sup> for specifications; specifications the same except for select-fire, trigger and 14.5-inch barrel availability

The BHI-15 SF Enhanced Battle Rifle was developed to provide maximum performance, durability and reliability for the most challenging missions anywhere on the globe. The real-world tactical experience applied to this rifle's design has culminated in a precision firearm that delivers optimal combat maneuverability, accuracy and mission-specific modularity. Key features include:

- Caliber:** 5.56mm NATO
- Bolt Carrier Group:** Gas-operated semi-auto, hard-chromed
- Charging Handle:** PRI Gasbuster
- Capacity:** 30 rounds 5.56mm NATO
- Stock:** Magpul CTR collapsible
- Forend:** Aluminum free-float tube carbine-length (11-in. barrel) mid-length (14.5-in. barrel)
- Barrel:** Chrome-lined, mid-length & carbine-length gas systems
- Barrel Length:** 11 inches or 14.5 inches
- Barrel Finish:** Manganese Phosphate
- Trigger:** Geissele Super Select-Fire single-stage/2-stage
- Upper Receiver:** MIL-SPEC A3 flat top
- Lower Receiver:** BHI-15 MULTI caliber aluminum
- Receiver Finish:** Hard-coat black anodized
- Muzzle:** Surefire muzzle brake/Suppressor Adapter

- BHI-15 Hand Guard System
- Hard-chromed bolt carrier group
- Geissele Super Select-Fire (SSF) trigger
- Surefire muzzle brake/suppressor adapter
- PRI Gasbuster charging handle
- Machined aluminum lower receiver
- Titanium firing pin
- Wolff springs
- Stark SE-1 pistol grip
- Magpul CTR collapsible stock

### BHI-15 SF 11-inch barrel rifle

- Weight:** 6.54 pounds (w/o magazine)
- Length:** Collapsed (27.1 inches)  
Extended (30.4 inches)

### BHI-15 SF 14.5 inch barrel rifle

- Weight:** 6.74 pounds (w/o magazine)
- Length:** Collapsed (31.3 inches)  
Extended (34.6 inches)

14.5-inch: BH-BHI15SF-14.5-01

11-inch: BH-BHI15SF-11-01

**THESE ARE SELECT-FIRE, FULLY AUTOMATIC FIREARMS FOR SALE TO AUTHORIZED MILITARY AND GOVERNMENT CLIENTS ONLY**

## BHI AR-15/M16 Lightning-Lok Titanium Firing Pin

BH-001-251

The BHI AR15/M16 Titanium Firing Pin represents a significant upgrade to standard steel AR15/M16 firing pins. Most notable is the reduced weight. This 40-percent reduction in weight over steel delivers a firing pin which travels faster in the bolt, producing a quicker lock time and minimizing the opportunity for shot disturbance. The reduced weight of Titanium also minimizes the chance of "slam-fire" since it carries less momentum than conventional steel pins. In addition to the all-Titanium construction, the BHI AR15/M16 Titanium Firing Pin comes with a hard Titanium Nitride (TiNi) coating. This hard surface has an inherent lubricity that improves the friction coefficient for quicker, smoother travel through the bolt, resulting in an overall improvement in mechanical efficiency. The TiNi coating is also resistant to corrosion and high temperatures, effectively eliminating galling, fretting and seizing. And thanks to its hard, smooth surface, the firing pin resists fouling buildup and is easier to clean than coarse steel pins.

## BHI Hard-Chromed Bolt Carrier Group

BH-001-250

All key components of our bolt carrier group (bolt carrier, bolt, cam pin, firing pin and gas key) feature a hard-chromed coating with a slick satin finish. The benefits of this special coating are significant when compared to

conventional manganese phosphate-coated components. Our hard-chromed bolt carrier group stays cleaner during use and resists fouling better than conventional bolt carrier groups, thereby maximizing operational performance and mechanical efficiencies, and minimizing the chance of failure. And thanks to the hard, slick finish, these components are easier to clean during routine maintenance and offer enhanced durability and life.

## BHI Quick-Adjust Weapon Sling

The BHI Quick-Adjust weapon sling allows you to meet fast-changing tactical situations. Built for a variety of weapon platforms, the sling is constructed of heavy-duty, 1.25-inch wide Denier nylon webbing (versus one-inch straps common with competing sling designs) for enhanced weight distribution, and features a long shoulder pad for maximum comfort. By simply pulling the adjustment strap the sling can transition the firearm from "loose carry" to a solid, tight-to-the-body shooting position in a snap. The adjustment strap is integrated (not loose), and features a Fastex buckle assembly so the rifle can be "cut away" from the operator if needed. This sling is available with sewn-in QD sling swivels or as an adjustable sling without swivels to work with multiple sling swivel styles and weapon platforms. Maximum length is 82 inches, making this sling long enough for use with various weapons, and to fit over soldiers wearing armor and a rucksack.

BH-000-009-BKS (w/sewn-in QD swivels)

BH-000-009-BK (w/o swivels)

## Stripped Upper/Lower Receivers

BH-001-150

### A3 Stripped Flat Top Upper Receiver

- MIL-SPEC forged 7075T6 aluminum
- Hard coat anodized black finish
- Machined T marks

### BHI-15 Billet Lower Receiver

- Semi-auto, MULTI caliber
- CNC-machined from solid aluminum billet
- No dimensional inconsistencies like standard forged receivers
- Oversized magazine well lip
- Reinforced receiver extension tube
- Hard-anodized finish

BH-001-375

## BHI-15 Hand Guard System

Developed as a universal fit on most 5.56mm NATO contoured barrels (a low-profile gas block is required), the unique BHI Hand Guard System design lets you add only the rails you need for your mission-specific requirements. The aluminum tube assembly allows your barrel to free-float for increased accuracy and heat dissipation, while the mounting slots give you control over the exact placement of required rail components. This allows you to "mix-and-match" rails (sold separately) to satisfy ongoing equipment configurations.

Carbine-Length (8.625 inches)

Mid-Length (10.5 inches)

Rifle-Length (14 inches)

## BHI-15 Upper Receiver Assemblies

**BHI-15 SBR<sup>2</sup> Upper** BH-BHI15SBR-UPPER11  
The BHI-15 SBR Upper includes the same premium receiver components as our S and SPR uppers, but includes an 11-inch barrel and carbine-length hand guard.

**BHI-15 S<sup>2</sup> Upper** BH-BHI15S-UPPER  
Combining an A3 upper receiver with a precision 16-inch chrome-lined barrel and BHI's modular hand guard system, the BHI-15 S Upper is a drop-in upgrade for any AR-style platform.

**BHI-15 SPR<sup>2</sup> Upper** BH-BHI15SPR-UPPER  
A 20-inch barrel designed for medium- to long-range tactical shooting is the hallmark of the BHI-15 SPR Upper. Fitted with BHI's hand guard system and A3 upper receiver, the SPR delivers sub-MOA accuracy far surpassing competing uppers.

All BHI-15 Uppers receive BHI's exclusive hard-chromed bolt carrier group & Titanium/TiNi-coated firing pin

### SPECIFICATIONS

## AR57 Upper/Lower Receiver Assemblies

BH-001-017-G2

**AR57 12-Inch SBR Upper Receiver, Gen 2**  
Includes 12-inch "SBR" barrel, flash suppressor, bolt, "carbine" buffer; Installs on AR-15, M16/M4 lower receivers • NFA rules apply

BH-001-012-G2

**AR57 16-Inch Rifle Upper Receiver, Gen 2**  
Package includes 16-inch barrel, flash suppressor, bolt, "carbine" buffer

## BHI Lower Receiver Assemblies

All BHI-15 lower receiver assemblies are based on the BHI-15 lower receiver—precision-engineered from aluminum for maximum strength and to reduce dimensional inconsistencies. Built with Wolff springs, oversized mag well lip for easy mag insertion, receiver extension tube reinforcement for strength and a durable hardened black anodized finish. The multi-caliber designation allows custom-built rifles in a variety of calibers.

BH-BHI15S-LOWER-F

**BHI-15 S<sup>2</sup> Lower**  
BHI-15 MULTI caliber aluminum receiver, Magpul CTR collapsible stock, Geissele SDC trigger, Stark pistol grip

BH-BHI15SPR-LOWER-F

**BHI-15 SPR<sup>2</sup> Lower**  
BHI-15 MULTI caliber aluminum receiver, Magpul PRS adjustable stock, Geissele SDC trigger, DPMS Panther Tactical pistol grip

## BHI-15 S Executive Package

The **BHI-15 (S) Executive Package** was developed specifically to provide a complete tactical support system for your BHI-15 S<sup>2</sup> rifle. Packed in a protective discreet padded nylon case and housed in a durable hard travel case, the BHI-15 (S) Executive Package includes everything you need to support your rifle's tactical or sporting applications. This package can also be used for any AR-15 platform, but the included rails are for use only with the BHI-15 hand guard system.

BH-BHI15S-EXPKG-MC

### PACKAGE CONTENTS

- Hard travel case with discreet padded nylon case
- Aimpoint Micro-H1 with QD mount and lens covers
- Insight M3X Tactical illuminator light
- Harris bipod & adapter
- Magpul flip-up front and rear sights
- 1.5-, 2- and 4-inch rails
- AR-15 Multitasker tool
- J. Dewey field cleaning kit
- (1) 5-round loose ammo speed loader
- (1) 10-round stripper clip speed loader
- M16/M4 Handbook
- (4) Lancer L5 AWM magazines, 30-round

### DISCREET NYLON CASE FEATURES

- 44-inch padded nylon rifle case
- (4) Adjustable/moveable rifle retention straps
- Padded divider, removable
- (3) General purpose accessory pouches with mesh front
- (4) AR / AK magazine pouches with retention bands
- Universal pistol pouch
- (4) Universal pistol magazine pouches
- Sewn-in carrying handles
- Adjustable shoulder strap
- Size of nylon case: 44 x 14 x 6 inches

## BHI-15 SPR Executive Package

The **BHI-15 SPR Executive Package** was developed specifically to provide a complete tactical support system for your BHI-15 SPR<sup>2</sup> rifle. Packed in a protective discreet padded nylon case and housed in a durable hard travel case, the BHI-15 SPR Executive Package includes everything you need to support your rifle's tactical or sporting applications. This package can also be used for any AR-15 platform, but the included rails are for use only with the BHI-15 hand guard system.

BH-BHI15SPR-EXPKG-MC

### PACKAGE CONTENTS

- Hard travel case with discreet padded nylon case
- Leupold Mark-AR 3x9 scope
- Harris bipod & adapter
- Magpul flip-up front and rear sights
- 1.5-, 2- and 4-inch rails
- Freedom Reaper Scope mount
- AR-15 Multitasker tool
- J. Dewey field cleaning kit
- (1) 5-round loose ammo speed loader
- (1) 10-round stripper clip speed loader
- M16/M4 Handbook
- (4) magazines, 20-round

### DISCREET NYLON CASE FEATURES

- 44-inch padded nylon rifle case
- (4) Adjustable/moveable rifle retention straps
- Padded divider, removable
- (3) General purpose accessory pouches with mesh front
- (4) AR / AK magazine pouches with retention bands
- Universal pistol pouch
- (4) Universal pistol magazine pouches
- Sewn-in carrying handles
- Adjustable shoulder strap
- Size of nylon case: 44 x 14 x 6 inches

## BHI M4 Ops Package

BH-M4OPS-01-CT-BK

### BHI OPS RIFLE CASE FEATURES

- (4) adjustable/moveable rifle retention straps and muzzle cap
- Padded divider, removable w/pockets for manuals/targets
- (3) general-purpose accessory pouches w/mesh front
- (4) M4/AK magazine pouches with retention bands
- Universal pistol pouch
- (4) universal pistol magazine pouches
- Suppressor pouch
- Sewn-in carrying handles
- Adjustable shoulder strap
- Size of nylon case: 44x14x6 inches

The **M4 Ops Package** was developed to provide a complete tactical support system for your M4 or other AR-style rifle. Packed in a protective discreet padded nylon case and housed in a durable hard travel case, the M4 Ops Package includes everything you need to support your rifle's tactical or sporting applications.

### BHI M4 OPS PACKAGE CONTENTS

- Wheeled, polymer travel case with discreet padded nylon case
- (4) Lancer L5 AWM magazines, 30-round
- (1) 5-round loose ammo speed loader
- (1) 10-round stripper clip speed loader
- AR-15 Multitasker tool
- J. Dewey field cleaning kit
- M16/M4 Handbook
- AR Owner's Manual
- (2) Firearm Usage & Maintenance Log Books

## BHI AK Ops Package

BH-AKOPS-01-OD-BK

### BHI OPS RIFLE CASE FEATURES

- (4) adjustable/moveable rifle retention straps and muzzle cap
- Padded divider, removable w/pockets for manuals/targets
- (3) general-purpose accessory pouches w/mesh front
- Universal pistol pouch
- (4) universal pistol magazine pouches
- Suppressor pouch
- Sewn-in carrying handles
- Adjustable shoulder strap
- Size of nylon case: 44x14x6 inches

The **AK Ops Package** was developed to provide a complete tactical support system for your AK rifle. Packed in a discreet padded nylon case and housed in a durable hard travel case, the **AK Ops Package** includes everything you need to support your rifle's tactical or sporting applications.

### AK OPS PACKAGE CONTENTS

- Wheeled, polymer travel case with discreet padded nylon case
- (4) Polymer magazines, 30-round
- AK cleaning kit w/sight tool & broken shell extractor
- AK Handbook
- AK Owner's Manual
- (2) Firearm Usage & Maintenance Log Books
- AK-47 Zero Targets

Blackheart International is the One-Stop Source for all your tactical equipment, weapons training and firearms instruction needs. We've been supplying and training U.S. Special Operations members since 1999, and now serve the civilian market with premium tactical gear and defensive weapon courses.

## ALSO AVAILABLE FROM BLACKHEART INTERNATIONAL

### Field Handbooks

BH-012-007    BH-012-009    BH-012-003    BH-012-005    BH-012-004

These handbooks are designed as quick reference training guides for all owners of AK-47, AR-15, M16/M4 and HK 416 series rifles, and Glock pistols. These handbooks give the "what" and "how" as well as the "why" necessary to teach the proper operation and employment of the weapons. Topics include:

- background/specifications of the weapons
- instructions on their operation
- disassembly and assembly procedures
- proper firing procedures
- malfunction/misfire procedures

### Operator's Guide

## SERIES

You won't find more current, up-to-date, full-color manuals anywhere in the world on the most common Soviet Bloc and NATO weapons currently in use around the globe. Our Operator's Guide series of manuals are authored and published in a joint effort by former Special Forces personnel from Blackheart International. Ideal for foreign weapons familiarization classes. Each manual gives the reader:

- background/specifications of the weapons
- instructions on their operation
- disassembly and assembly procedures
- proper firing procedures
- malfunction/misfire procedures
